

# Flow

I got an itch to do something is how I feel  
With every shot that I do I stay true and real  
The day has come to challenge everything and everyone  
And with the flow the clouds are pulling on  
I'm lookin back the wind hits my face  
Water's lunges up and grabs me  
Robbing me of my sight  
While happiness slaps me in the face

Wind is comin on strong this is where I belong  
I just keep in my mind keep in my mind  
The flow is overwhelming me my head shouts –  
Do it just do it just do it

I need no controlling –  
I run under full sails and you're crawling  
My appetite grows  
Against the flow against the flow

I'm lookin back wind hits my face  
Water's lunges up and grabs me  
Robbing me of my sight  
While happiness slaps me in the face

Ohoh the wind is waiting for me  
Waves are breaking over me  
Coming closer and filling me up inside  
Ohoh ...

## Empty Tainment

I'm not interested in simple people's sins  
I'm not infected watching must-have-seens  
My plan is simple, I hope you think so too  
Ignore the white noise, that's all you have to do!

EmptyTainment blows my mind  
EmptyTainment takes my time  
EmptyTainment leaves us blind  
Free derangement of my mind

I'm not interested in voyeuristic games  
I'm not infected enjoying people's pain  
My plan is simple, I hope you think so too  
Ignore the white noise, that's all you have to do!
